

MINI PROJECT-II
FINAL REPORT
(2020-21)

E-SHOPPERS

Department of Computer Engineering
& Applications

GLA
UNIVERSITY
MATHURA
Established vide U.P. Act 21 of 2010.

Submitted By:

Pratibha Dixit

(University Roll No- 181500498)

(Section- G)

(Class Roll No.- 51)

Supervised By:

Mr. Anand Prakash Gupta

Asst. Professor

**Department of Computer Science &
Applications**

Declaration

I hereby declare that the work which is being presented in the Mini Project-II “E-SHOPPERS”, in partial fulfilment of the requirements for Mini Project Lab is an authentic record of my own work carried under the supervision of **Mr. Anand Prakash Gupta**.

Pratibha Dixit (181500498)

University Roll No.- 181500498

Section- G

Class Roll No.- 51

Certificate

This is to certify that the project entitled “E-SHOPPERS” carried out in Mini Project-II is a bonafied work done by **Pratibha Dixit (181500498)** and is submitted in partial fulfilment of the requirement of the project to be submitted under Mini Project-II for 6th semester.

Signature of Supervisor:

Name of Supervisor: Mr. Anand Prakash Gupta

Date: 15/04/2021

Acknowledgement

It gives us the immense pleasure to present the report of the B.Tech. Mini Project undertaken during B.Tech. 3rd Year. This project in itself is an acknowledgement to the inspiration, drive and technical assistance contributed to it by mentors. This project would never have seen the light of the day without the help and guidance that we have received.

My heartiest thanks to **Dr.(Prof). Anand Singh Jalal, Head of Dept., Department of CEA** for providing me with an encouraging platform to develop this project, which thus helped me in shaping my abilities towards a constructive goal.

I owe special debt of gratitude to **Mr. Anand Prakash Gupta**, for his constant support and guidance throughout the course of our work. His sincerity, thoroughness and perseverance has been a constant source of inspiration for me. He has showered me with all their extensively experienced ideas and insightful comments at virtually all stages of the project & has also taught me about the latest industry-oriented technologies.

I also do not like to miss the opportunity to acknowledge the contribution of all faculty members of the department for their kind guidance and cooperation during the development of my project.

Thanking You All,

Pratibha Dixit

Abstract

Computer plays an important role in our daily life. Anything we want we can get only in one mouse click. Speed, reliability and accuracy of the computer make it a powerful tool for different purposes. A very important and basic need of today's modern business world is the quick availability and processing of information using computer. One can easily get the type of required information within a fraction of a second. The project that I have taken is also in this category which is used in our daily life whenever we want to purchase some items we can easily get them at our home.

E-commerce (electronic commerce) is the buying and selling of goods and services, or the transmitting of funds or data, over an electronic network, primarily the internet. These business transactions occur either as business-to-business (B2B), business-to-consumer (B2C), consumer-to-consumer or consumer-to-business. The terms e-commerce and e-business are often used interchangeably. The term e-tail is also sometimes used in reference to the transactional processes for online shopping.

The E-Shoppers is a web based application intended for online retailers. The main objective of this application is to make it interactive and its ease of use. It would make searching, viewing and selection of a product easier. It contains a sophisticated search engine for user's to search for products specific to their needs. The search engine provides an easy and convenient way to search for products where a user can Search for a product interactively and the search engine would refine the products available based on the user's input. The user can then view the complete specification of each product. They can also view the product reviews and also write their own reviews. The application also provides a drag and drop feature so that a user can add a product to the shopping cart by dragging the item in to the shopping cart. The main emphasis lies in providing a userfriendly search engine for effectively showing the desired results and its drag and drop behavior.

1. Introduction

1.1 General Introduction To The Topic:

The world is fast evolving, and so is everything that resides in it. The market system of the world today is no exception to this evolution. Lots of businesses and trade stores now take their online presence seriously. The reason is not far-fetched; this is because most people now prefer to purchase their goods and services online rather than entering someone's store to shop.

Since the rise of large internet-based e-commerce sites, the growth of online shopping has been exponential, with a huge increase in the number of consumers choosing to buy online rather than in-store. Many traditional retailers have also followed suit, with most shops now having a dedicated e-commerce website from which consumers can make online purchases, from high street brands to charities. Even brands which no longer exist on the high street are often available online.

“E-Shoppers” is a web-based project which is made for remote-shopping or shopping through Internet. As the technology is being advanced the way of life is changing accordance. Now a day's we can place the order for anything from our home. There is no need to go the shop of the things we want. The order can be placed online through Internet. The payment, the confirmation of purchasing; we can do everything we want. Now we can think that how the days have been changed with time. People had to stand in rows to wait there terms to buy a particular thing from a popular shop. But what is happening now a day's; we can extremely surprise that those things can be available on the door-step in few hours.

This project entitled “E-Shoppers” is an implementation of the above description. It means, it implements the E-shopping or in other word shopping through Internet. It lets the user to place their order online for any article.

1.2 Area Of Computer Science:

Web development is the work involved in developing a Web site for the Internet (World Wide Web) or an intranet (a private network). Web development can range from developing a simple single static page of plain text to complex Web-based Internet applications (Web apps), electronic businesses, and social network services. A more comprehensive list of tasks to which Web development commonly refers, may include Web engineering, Web design, Web content development, client liaison, client-side/server-side scripting, Web server and network security configuration, and e-commerce development.

Among Web professionals, “Web development” usually refers to the main non-design aspects of building Web sites: writing markup and coding. Web development may use content management system (CMS) to make content changes easier and available with basic technical skills.

For larger organizations and businesses, Web development teams can consist of hundreds of people (Web developers) and follow standard methods like agile methodologies while developing Web sites. Smaller organizations may only require a single permanent or contracting developer, or secondary assignment to related job positions such as graphic designer or information systems technician. Web development may be a collaborative effort between departments rather than the domain of a designated department.

There are two kinds of Web developer specialization:

1. Front-end Developer
2. Back-end Developer

Front-end developers are responsible for behaviour and visuals that run in the user browser, while back-end developers deal with the services. Whereas, full-stack developers are combination of both front-end developers and back-end developers.

1.3 Hardware And Software Requirements:

1.3.1 Hardware Requirements Specification:

Processor	: Intel Pentium III or later
Main Memory(RAM)	: 512 MB
Cache Memory	: 512 KB
Monitor	: 14 inch Color Monitor
Keyboard	: 108 Keys
Mouse	: Optical Mouse
Hard Disk	: 160 GB

1.3.2 Software Requirements Specification:

Front End/Language	:	PHP, CSS, JavaScript
Back End/Database	:	MYSQL
Additional Tools	:	XAMPP Server
Operating System	:	Windows 7, 8, 9, 10, XP

2. Problem Definition

2.1 Existing System:

- The basic problems with the existing systems are the non-interactive environment they provide to the users.
- The use of traditional user interfaces which make continuous post backs to the server; each post back makes a call to the server, gets the response and then refreshes the entire web form to display the result. This scenario adds an extra trade off causing a delay in displaying the results.
- A search engine that would display the results without allowing the users to further filter the results based on various parameters.
- Use of traditional and non-user friendly interfaces that are hard to use.

2.2 Drawbacks Of Existing System:

1. You lose a lot of time.
2. You must meet a lot of strangers and go through the fuss.
3. To try on the clothes you must wait for a free dressing room.
4. Consumers have to travel a certain distance to the product.
5. It costs money to build a physical atmosphere.
6. You forget the prices you have seen in the previous shops, so you can't compare them.
7. Not all stores and businesses have the exact item for the customers.
8. Since you want to see something and visit every store, you are under pressure.
9. There is some limited time of when the store is open and shut.

2.3 Proposed System:

This software is developed to help computer science students learn about application designing using JavaScript and HTML from their basic capabilities. This application allows the student to understand the basics about the appearance of a first web page and how a complete working application can be built from scratch. It allows students to understand the concept of user-integrated graphics and how JavaScript can be embedded into HTML. Further, it gives insight about how the client-side language interacts with the server-side language, Java, and finally with the database. This shopping-cart application is designed, primarily, for computer science students to learn and understand the concept of application development, and can also be used to teach ecommerce and web-application topics. The application can be downloaded and installed on different machines, and students can view the source code for all the different parts shown on the UI to visually understand how a particular piece of code works. This shopping-cart application is very versatile and can be enhanced by adding more functions and modified graphics for use with commercial purposes.

2.4 Features Of Proposed System:

1. **Convenience.** Convenience is the biggest perk. Where else can you comfortably shop at midnight while in your pajamas? There are no lines to wait in or cashiers to track down to help you with your purchases, and you can do your shopping in minutes. Online shops give us the opportunity to shop 24/7, and also reward us with a ‘no pollution’ shopping experience. There is no better place to buy informational products like e-books, which are available to you instantly, as soon as the payment goes through. Downloadable items purchased online eliminate the need for any kind of physical material at all, as well, which helps the environment!
2. **Better prices.** Cheap deals and better prices are available online, because products come to you direct from the manufacturer or seller without involving middlemen. Plus, it's easier to compare prices and find a better deal. Many online sites offer discount coupons and rebates, as well. Not only are prices better, but you can save on tax as well, since online shops are only required to collect a sales tax if they have a physical location in your state. Factor in the saved expense of gas and parking and you have saved yourself a lot of money!
3. **More variety.** The choices online are amazing. You can find almost any brand or item you're looking for. You can get in on the latest international trends without spending money on airfare. You can shop from retailers in other parts of the state, country, or even world instead of being limited to your own geography. A far greater selection of colors and sizes than you will find locally are at your disposal. Plus, the stock is much more plentiful, so you'll always be able to find your size and color. Some online shops even accept orders for out-of-stock items and ship when they come in.
4. **You can send gifts more easily.** Sending gifts to relatives and friends is easy, no matter where they are. All the packaging and shipping is done for you. Oftentimes, they'll even gift wrap it for you! Now, there is no need to make distance an excuse for not sending a gift on occasions like birthdays, weddings, anniversaries, Valentine's Day, Mother's Day, Father's Day, and so forth.

5. **More control.** Many times, when we opt for conventional shopping, we tend to spend a lot more than planned and end up buying items that aren't exactly what we wanted (but we can't find anything better in the store). Online, you don't have to let the store's inventory dictate what you buy, and you can get exactly what you want and need.
6. **Easy price comparisons.** Comparing and researching products and their prices is so much easier online. If you're shopping for appliances, for example, you can find consumer reviews and product comparisons for all the options on the market, with links to the best prices. We can research firsthand experience, ratings, and reviews for most products and retailers.
7. **No crowds.** If you are like me, you hate crowds when you're shopping. Especially during holidays, festivals, or on weekends, they can be such a huge headache. Also, being crushed in the crowds of shoppers sometimes makes us feel rushed or hurried. You don't have to battle for a parking place. All of these problems can be avoided when you shop online.
8. **No pressure.** Oftentimes when we're out shopping, we end up buying things that we don't really need, all because shopkeepers pressure us or use their selling skills to compel us to make these purchases.
9. **You can buy used or damaged items at lower prices.** The marketplace on the Internet gives us access to listings of old or damaged items at rock bottom prices. Also, if we want to buy antiques, there's no better place to find great ones.
10. **Discreet purchases are easier.** Some things are better done in the privacy of your home. Online shops are best for discreet purchases for things like adult toys, sexy lingerie, and so on. This enables me to purchase undergarments and lingerie without embarrassment or any paranoia that there are people watching or judging me.

3. Objective

Developing a GUI based automated system, which will cover all the information Related to the all products which is used in our daily life. For example – Mobiles Phones, Laptops, Clothes, Books, Electronic Items and many more. So by this GUI based automated system a user want to purchase something then it only a mouse click away to purchase these products.

The e-commerce is mainly useful for who haven't time to go shopping or for comfortably to the customers. Those are just entered into this website and bought they want at any time they can visit the web-site. Customer will choose different items like mobile, laptops, etc. This website is based on this formal. After chosen items they pay bill thorough pay pal process. Customer will get their items just sitting at home.

There are several objective of this website. Some of them are as following:

- This site gives all the information about the e-shopping to provide better services to the customer.
- It provides the facility to the customers who want to shop on-line due to lock of time.
- It provides the facility to the customer for payment by cash, cheque and DD also.
- It's providing the full details about the product and related information about the product like cost, size etc.
- With it's help we can save both time and money.
- It provides better security and good delivery service to the customer.
- This site gives all the information about the e-shopping to provide better service.

4. Implementation Details

4.1 Detail Description Of Technology Used:

Following is the brief description about various technologies used while designing this system:

➤ **PHP (Hypertext Preprocessor):**

Hypertext Preprocessor is a widely used, general-purpose scripting language that was originally designed for web applications.

➤ **PHP Advantages:**

A popular choice in today's web world is using PHP. PHP is a general-purpose scripting language that is especially suited to server-side web development where PHP generally runs on a web server. Its clarity in design, well organized modules and better upkeep of various technologies, make it the most popular language in the online industry today. Its popularity and credibility can be judged by the fact that reputed organizations like Harvard University and popular social networking site Facebook, both are based on PHP. This is possible because PHP websites can be easily maintained, improved and updated from time to time.

➤ **JavaScript:**

JavaScript is an object-oriented scripting language used to enable programmatic access to objects within both the client application and other applications. It is primarily used in the form of client-side JavaScript, implemented as an integrated component of the web browser, allowing the development of enhanced user interfaces and dynamic websites. JavaScript is a dialect of the ECMA Script standard and is characterized as a dynamic, weakly typed, prototype-based language with first-class functions. JavaScript was influenced by many languages and was designed to look like Java, but to be easier for non-programmers to work with. JavaScript was originally developed by Brendan Eich of Netscape under the name Mocha, which was later renamed to Live Script, and finally to JavaScript.

➤ Apache:

The name ‘Apache’ was chosen from respect for the Native American Indian tribe of Apache, well-known for their superior skills in warfare strategy and their inexhaustible endurance. It also makes a cute pun on “a patchy web server”, a server made from a series of patches but this was not its origin. The group of developers who released this new software soon started to call themselves the “Apache Group”. The Apache HTTP Server, colloquially called Apache, is a free and open-source cross-platform web server software, released under the terms of Apache License 2.0. Apache is developed and maintained by an open community of developers under the auspices of the Apache Software Foundation.

➤ SQL Server:

SQL is Structured Query Language, which is a computer language for storing, manipulating and retrieving data stored in a relational database.

SQL is the standard language for Relational Database System. All the Relational Database Management Systems (RDBMS) like MySQL, MS Access, Oracle, Sybase, Informix, Postgres and SQL Server use SQL as their standard database language.

Also, they are using different dialects, such as-

- MS SQL Server using T-SQL,
- Oracle using PL/SQL,
- MS Access version of SQL is called JET SQL (native format) etc.

➤ CSS:

Cascading Style Sheets is a style sheet language used for describing the presentation of a document written in a markup language such as HTML. CSS is a cornerstone technology of the World Wide Web, alongside HTML and JavaScript.

➤ Bootstrap:

Originally created by a designer and a developer at Twitter, Bootstrap has become one of the most popular front-end frameworks and open source projects in the world. Bootstrap is a free and open-source CSS framework directed at responsive, mobile-first front-end web

development. It contains CSS- and JavaScript-based design templates for typography, forms, buttons, navigation, and other interface components.

➤ **Github:**

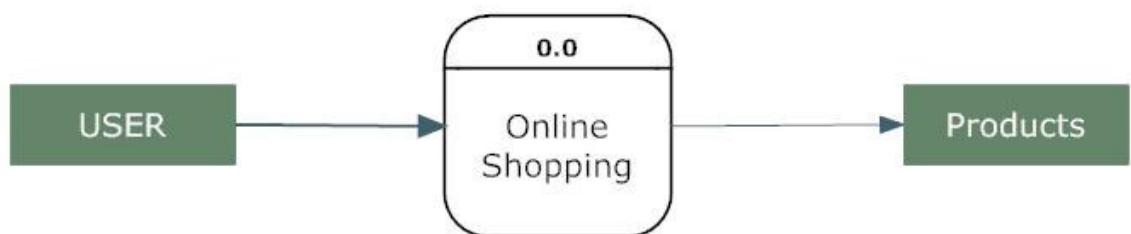

GitHub is a web-based hosting service for version control using Git. It is mostly used for computer code. It offers all of the distributed version control and source code management (SCM) functionality of Git as well as adding its own features. It provides access control and several collaboration features such as bug tracking, feature requests, task management, and wikis for every project.

GitHub offers plans for both private repositories and free accounts which are commonly used to host open-source software projects.

6.15 At last we have report page in our admin panel where we can find the list of placed orders between certain dates:

The screenshot shows the 'Report' section of the eShoppers Admin Panel. On the left sidebar, under the 'Report' category, there is a link labeled 'Report'. The main area has a title 'List of Ordered Products' and a subtitle 'Inclusive Dates: From : - To :'. Below this is a table header with columns: Date Ordered, Product, Original Price, Price, Quantity, and Sub-total. A message 'Please Enter Then Dates' is displayed above the table. At the bottom of the page is a copyright notice: 'Copyright © Bachelor of Science and Entrepreneurs'.

This screenshot is similar to the one above, but it includes a date picker modal window. The modal shows a calendar for April 2021, with the date '11' highlighted. The rest of the interface is identical to the first screenshot, including the table header, placeholder message, and copyright notice.

6.16 We can also add new product, category or user(Admin) from the button in below photograph on our Admin panel:

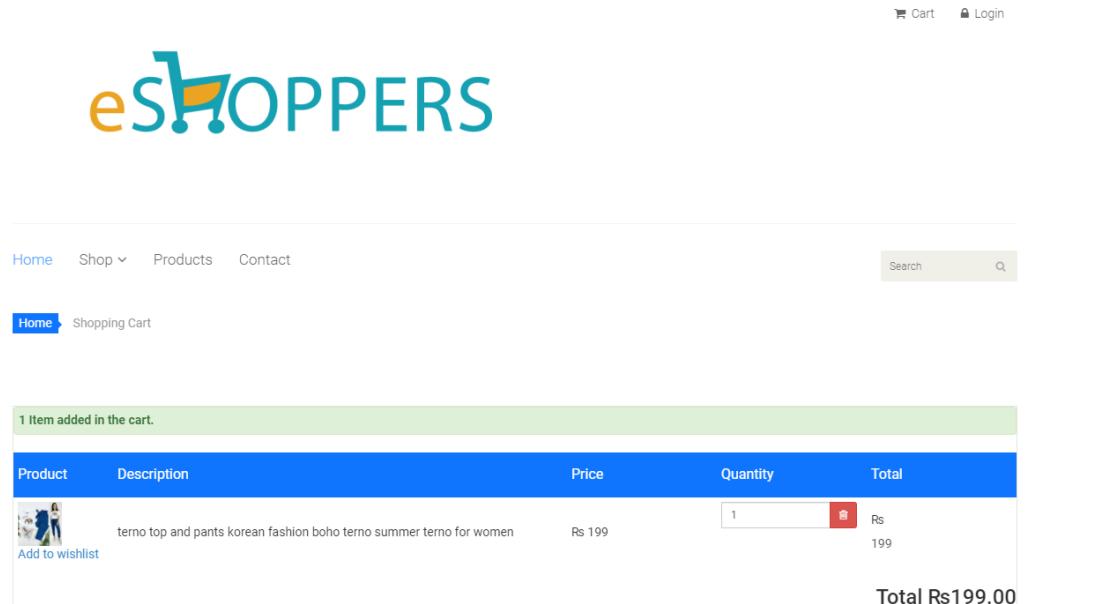

The screenshot shows the 'eShOPPERS' Admin interface. On the left is a sidebar with links: Products, Orders (0), Categories, Setting, Users, and Report. The main area is titled 'List of Products' with a 'New' button. It includes a search bar and a table with columns: #, Image, Product, Description, Price, Discount%, Discounted Price, and Quantity. The table contains six entries. At the bottom are navigation buttons for Previous, Next, and a page number '1'.

#	Image	Product	Description	Price	Discount%	Discounted Price	Quantity

6.17 Now, finally logging out of our Admin panel:

This screenshot is identical to the one above, showing the 'List of Products' page. However, the context menu in the top right corner has different options: profile image, Admin, Edit My Profile, and Log Out. The rest of the interface, including the sidebar and table data, remains the same.

6.18 Adding to cart option without signing up after add up you can either return back to choose more items for purchasing or you can proceed to pay by logging in to your account:

The screenshot shows the eShoppers website interface. At the top right, there are links for 'Cart' and 'Login'. The main header features the 'eShoppers' logo. Below the header, a navigation bar includes 'Home', 'Shop ▾', 'Products', and 'Contact'. A search bar with a magnifying glass icon is also present. The main content area displays a message '1 Item added in the cart.' followed by a table of the cart's contents. The table has columns for 'Product', 'Description', 'Price', 'Quantity', and 'Total'. One item is listed: 'terno top and pants korean fashion boho terno summer terno for women' with a price of 'Rs 199'. The quantity is set to '1' with a plus-minus button. The total amount is 'Total Rs199.00'. Below the table, a section asks 'What would you like to do next?' with options 'Add New Order' and 'Proceed And Checkout'.

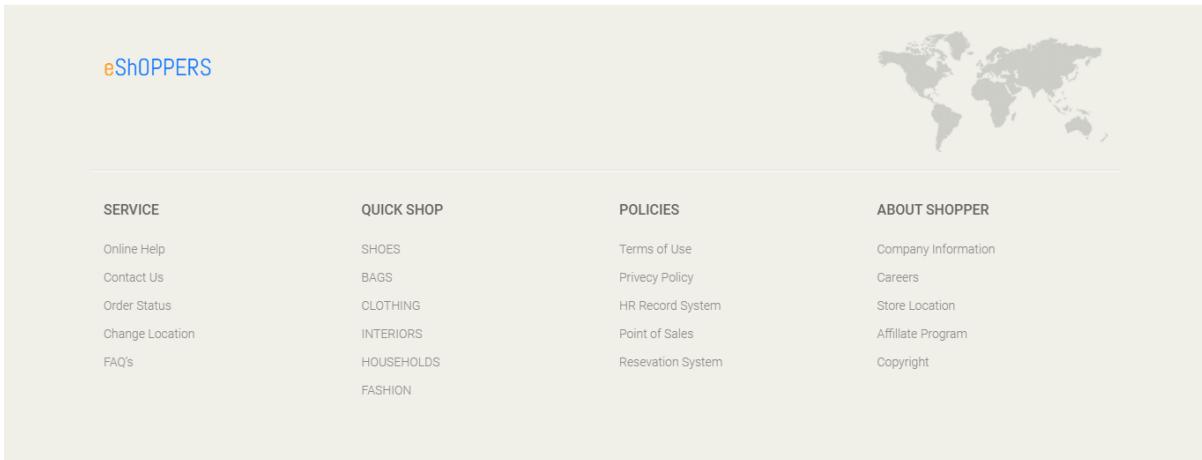

Product	Description	Price	Quantity	Total
 Add to wishlist	terno top and pants korean fashion boho terno summer terno for women	Rs 199	<input type="button" value="1"/> <input type="button" value="+"/> <input type="button" value="-"/>	Rs 199

Total Rs199.00

What would you like to do next?

Choose if you have a discount code or reward points you want to use or would like to estimate your delivery cost.

[← Add New Order](#) [Proceed And Checkout →](#)

The footer section contains the eShoppers logo and a world map icon. It is divided into four main categories: SERVICE, QUICK SHOP, POLICIES, and ABOUT SHOPPER. Each category lists several links.

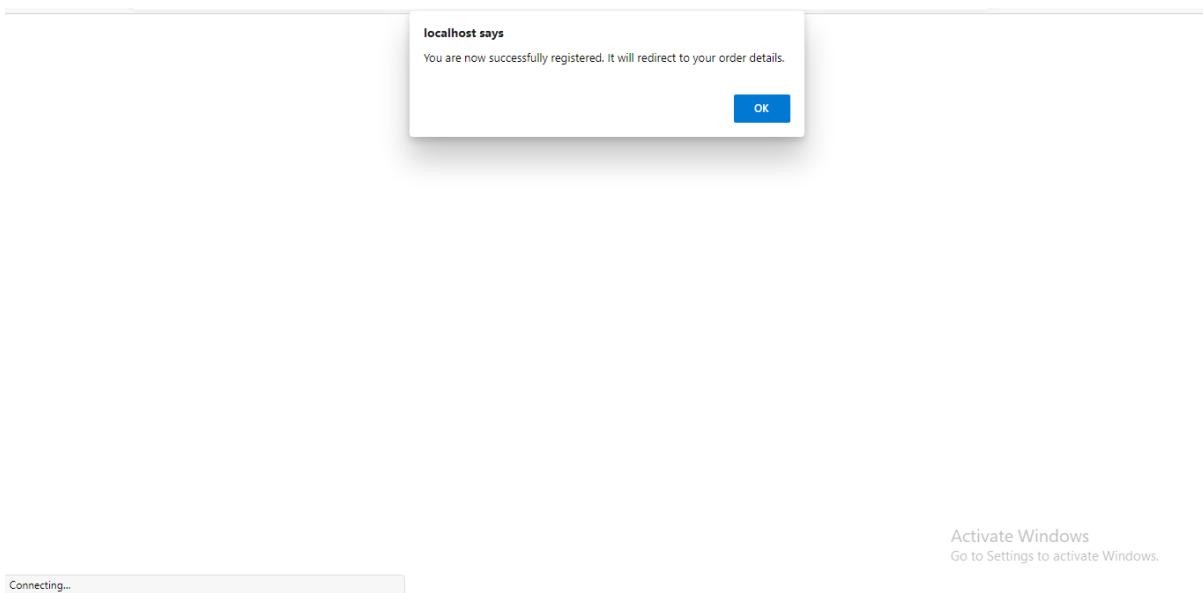

SERVICE	QUICK SHOP	POLICIES	ABOUT SHOPPER
Online Help	SHOES	Terms of Use	Company Information
Contact Us	BAGS	Privecy Policy	Careers
Order Status	CLOTHING	HR Record System	Store Location
Change Location	INTERIORS	Point of Sales	Affiliate Program
FAQ's	HOUSEHOLDS	Reservation System	Copyright
	FASHION		

6.19 Now let us sign-up with a name “Arya Singh”:

The screenshot shows the eShoppers sign-up page. At the top, there are 'Login' and 'Sign Up' buttons. Below them is a 'Customer Details' section with the following fields:

- First Name: Arya
- Last Name: Singh
- Gender: ♂ Male ♂ Female
- Municipality/City: New Delhi
- Username: AryaSingh
- Password: (redacted)

A note below the password field states: "Password must be atleast 8 to 15 characters. Only letter, numeric digits, underscore and first character must be a letter." There is also a contact number field containing "9876543210". A checkbox labeled "I Agree with the [TERMS AND CONDITION](#) . . ." is checked. At the bottom are 'Sign Up' and 'Close' buttons.

Activate Windows
Go to Settings to activate Windows.

Connecting...

6.20 After we click on “OK” of the above page, we will get redirected to the account of “Arya Singh” and our Home page will look like as follows:

The screenshot shows the eShoppers website's Order Details page. At the top, there are navigation links for Home, Shop, Products, Contact, a Cart icon, Account, and Logout. The main header features the "eShoppers" logo. Below the header, a breadcrumb navigation shows "Home > Order Details". On the left, customer details are listed: Name: Arya Singh and Address: New Delhi. To the right, the Order Number is 096. A table displays the order items with columns for Product, Description, Quantity, Price, and Total. The total price is Rs 0.00, delivery fee is Rs 0.00, and overall price is Rs 0. Below the table, a section asks "What would you like to do next?" with options for discount code, reward points, and delivery cost estimation. It includes a "Payment Method" section with "Cash on Delivery" selected. An "Address where to deliver" field is present, with "Place(Brgy/City)" set to "Select". At the bottom, there are "View Cart" and "Submit Order" buttons. The footer contains the eShoppers logo, a world map, and links to various services like Online Help, Contact Us, Order Status, Change Location, FAQ's, Quick Shop categories (Shoes, Bags, Clothing, Interiors, Households, Fashion), Policies (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System), and About Shopper sections (Company Information, Careers, Store Location, Affiliate Program, Copyright).

6.22 Update Account and Change Password section of customer Arya Singh:

The screenshot shows the eShoppers website's account management page. At the top, there is a navigation bar with links for Home, Shop, Products, Contact, Cart, Account, and Logout. Below the navigation is the eShoppers logo.

The main content area has a breadcrumb navigation: Home > Profile. It features a profile image placeholder labeled "profile image". Below it, there are tabs for LIST OF ORDERS, UPDATE ACCOUNT (which is selected), and WISHLIST.

The "Your Account" section contains the following fields:

- Real name:** Arya Singh (with a "Change Password" link)
- Municipality/City:** New Delhi
- Username:** AryaSingh
- Contact#:** 9876543210
- Gender:** Male Female

A "Save" button is located at the bottom of this section.

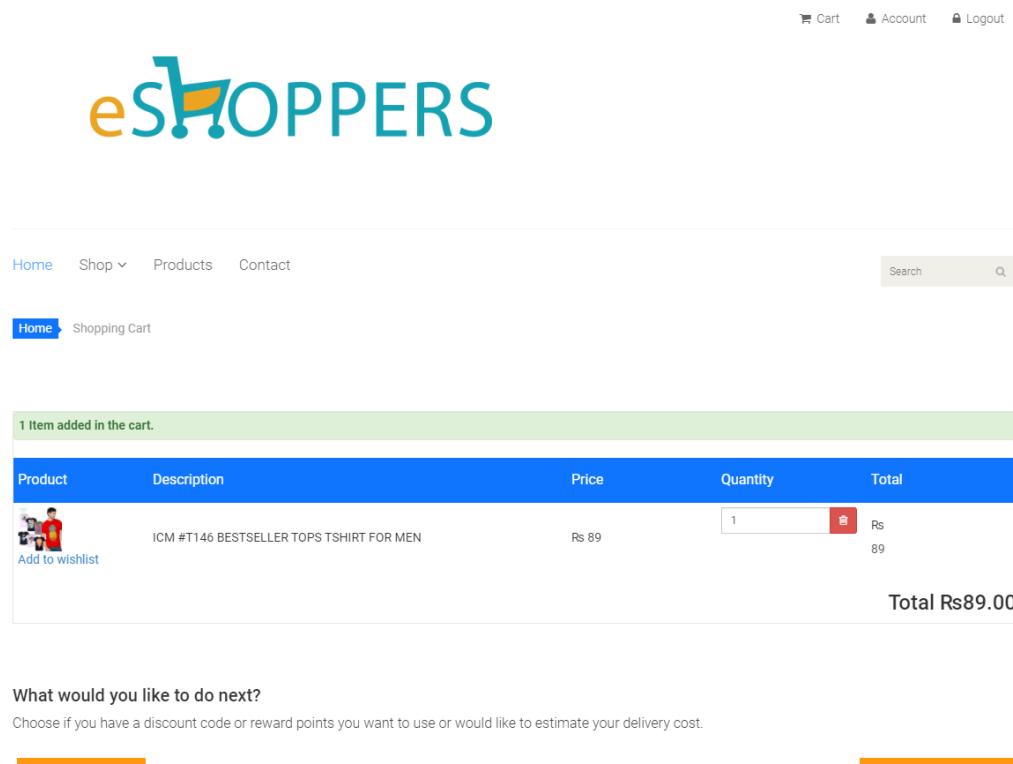

At the bottom of the page, there is a footer with the eShoppers logo and a world map. The footer is divided into four sections:

- SERVICE**: Online Help, Contact Us, Order Status, Change Location, FAQ's
- QUICK SHOP**: SHOES, BAGS, CLOTHING, INTERIORS, HOUSEHOLDS, FASHION
- POLICIES**: Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System
- ABOUT SHOPPER**: Company Information, Careers, Store Location, Affiliate Program, Copyright

6.23 Cart section of customer Arya Singh. It is currently empty as our customer has not selected any item to purchase.

The screenshot shows the eShoppers website interface. At the top right, there are links for 'Cart' (with a shopping cart icon), 'Account' (with a user icon), and 'Logout'. The main header features the 'eShoppers' logo. Below the header, a navigation bar includes links for 'Home', 'Shop ▾', 'Products', and 'Contact'. A search bar with a magnifying glass icon is also present. The main content area displays a message: 'There is no item in the cart.' Below this, a table summary shows the following columns: Product, Description, Price, Quantity, and Total. The total value is listed as 'Total Rs0.00'. Underneath the table, a section titled 'What would you like to do next?' asks if the user has a discount code or reward points. A button labeled '← Add New Order' is visible. The footer contains links for various services like Online Help, Contact Us, Order Status, Change Location, and FAQ's, as well as sections for Quick Shop (Shoes, Bags, Clothing, Interiors, Households, Fashion) and Policies (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System). The footer also includes a world map graphic and links for About Shopper (Company Information, Careers, Store Location, Affiliate Program, Copyright).

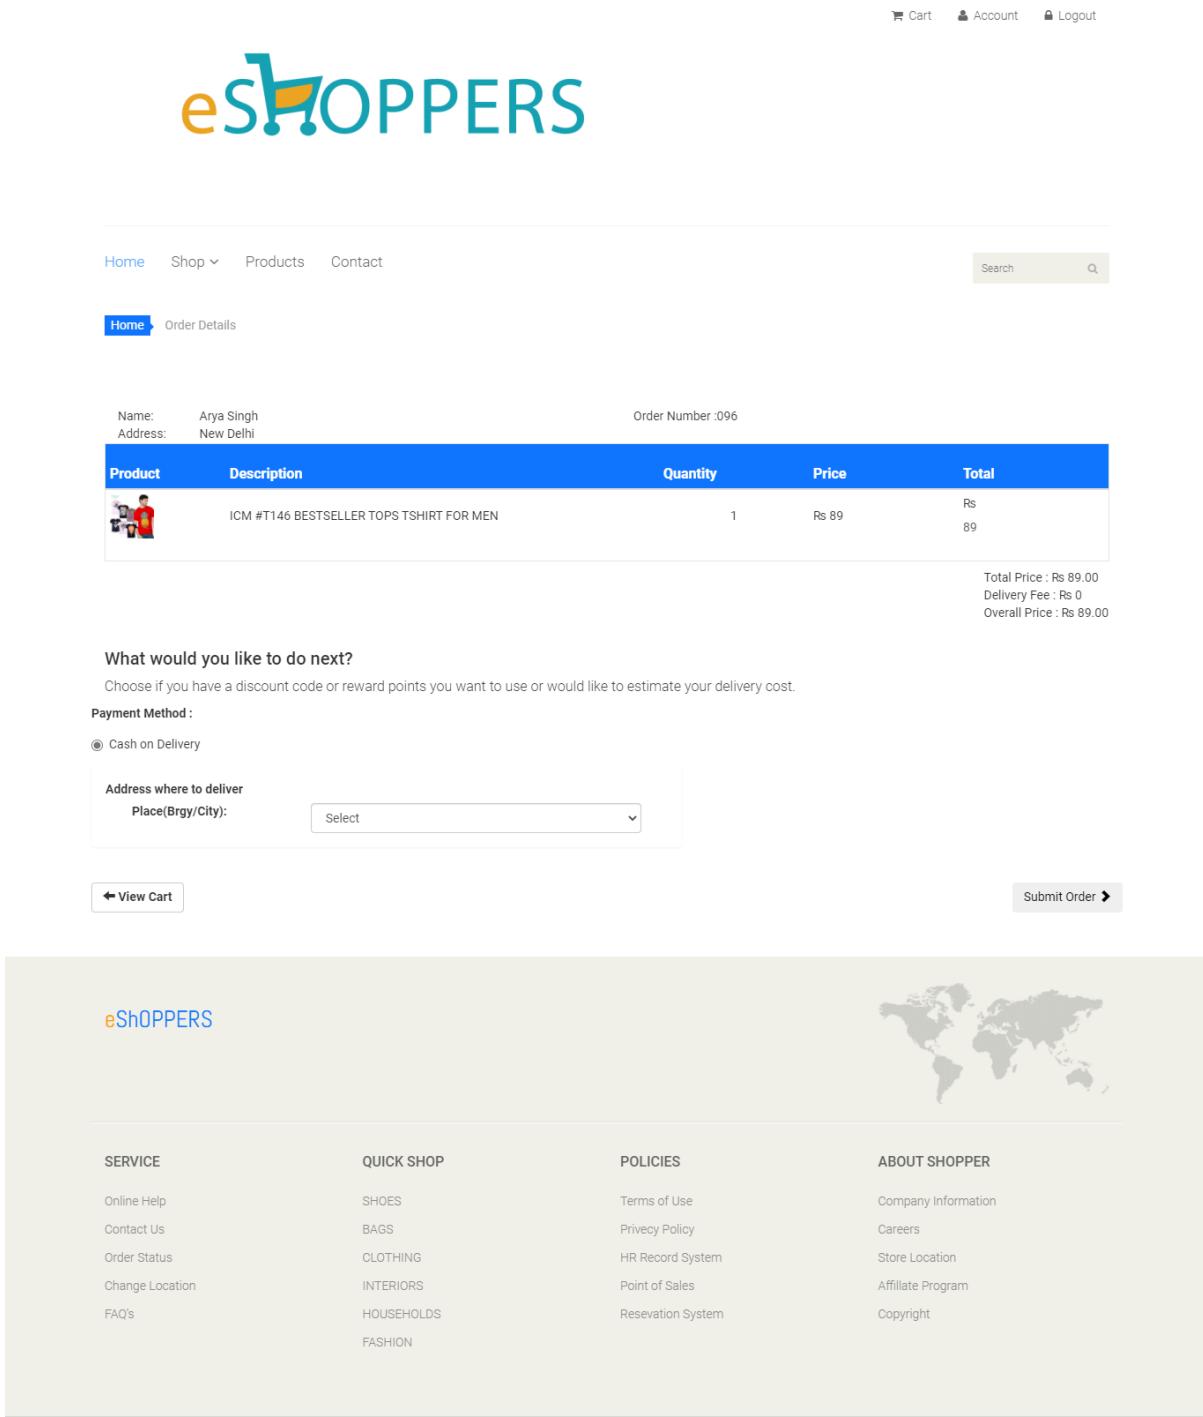

6.24 So, now we will add new item to our cart to see how it shows to our customer. Now adding new order in our cart:

The screenshot shows the eShoppers website interface. At the top, there is a navigation bar with links for Home, Shop, Products, Contact, Cart, Account, and Logout. Below the navigation bar is the eShoppers logo. The main content area shows a message "1 Item added in the cart." followed by a table of the item in the cart. The table has columns for Product, Description, Price, Quantity, and Total. The product listed is "ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN" at Rs 89, with a quantity of 1. A "Total Rs89.00" summary is shown. Below the table, there is a section asking "What would you like to do next?" with options to "Add New Order" or "Proceed And Checkout". The footer contains links for various services like Online Help, Contact Us, Order Status, Change Location, FAQ's, QUICK SHOP (Shoes, Bags, Clothing, Interiors, Households, Fashion), POLICIES (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System), and ABOUT SHOPPER (Company Information, Careers, Store Location, Affiliate Program, Copyright). It also features a world map icon.

Product	Description	Price	Quantity	Total
 Add to wishlist	ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN	Rs 89	<input type="text" value="1"/> 	Rs 89
Total Rs89.00				

6.25 From the above screen we can see that we can either add a new order or we can proceed and checkout. Now, as we have already seen how to book an item let's proceed to checkout this item:

The screenshot shows the eShoppers website's Order Details page. At the top, there are links for Cart, Account, and Logout. The main header is "eShOPPERS". Below the header, there are navigation links for Home, Shop, Products, Contact, and a search bar. The breadcrumb navigation shows the user is at Home > Order Details.

User information: Name: Arya Singh, Address: New Delhi. Order Number: 096.

Product	Description	Quantity	Price	Total
	ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN	1	Rs 89	Rs 89

Summary: Total Price: Rs 89.00, Delivery Fee: Rs 0, Overall Price: Rs 89.00.

What would you like to do next?

Choose if you have a discount code or reward points you want to use or would like to estimate your delivery cost.

Payment Method:

Cash on Delivery

Address where to deliver

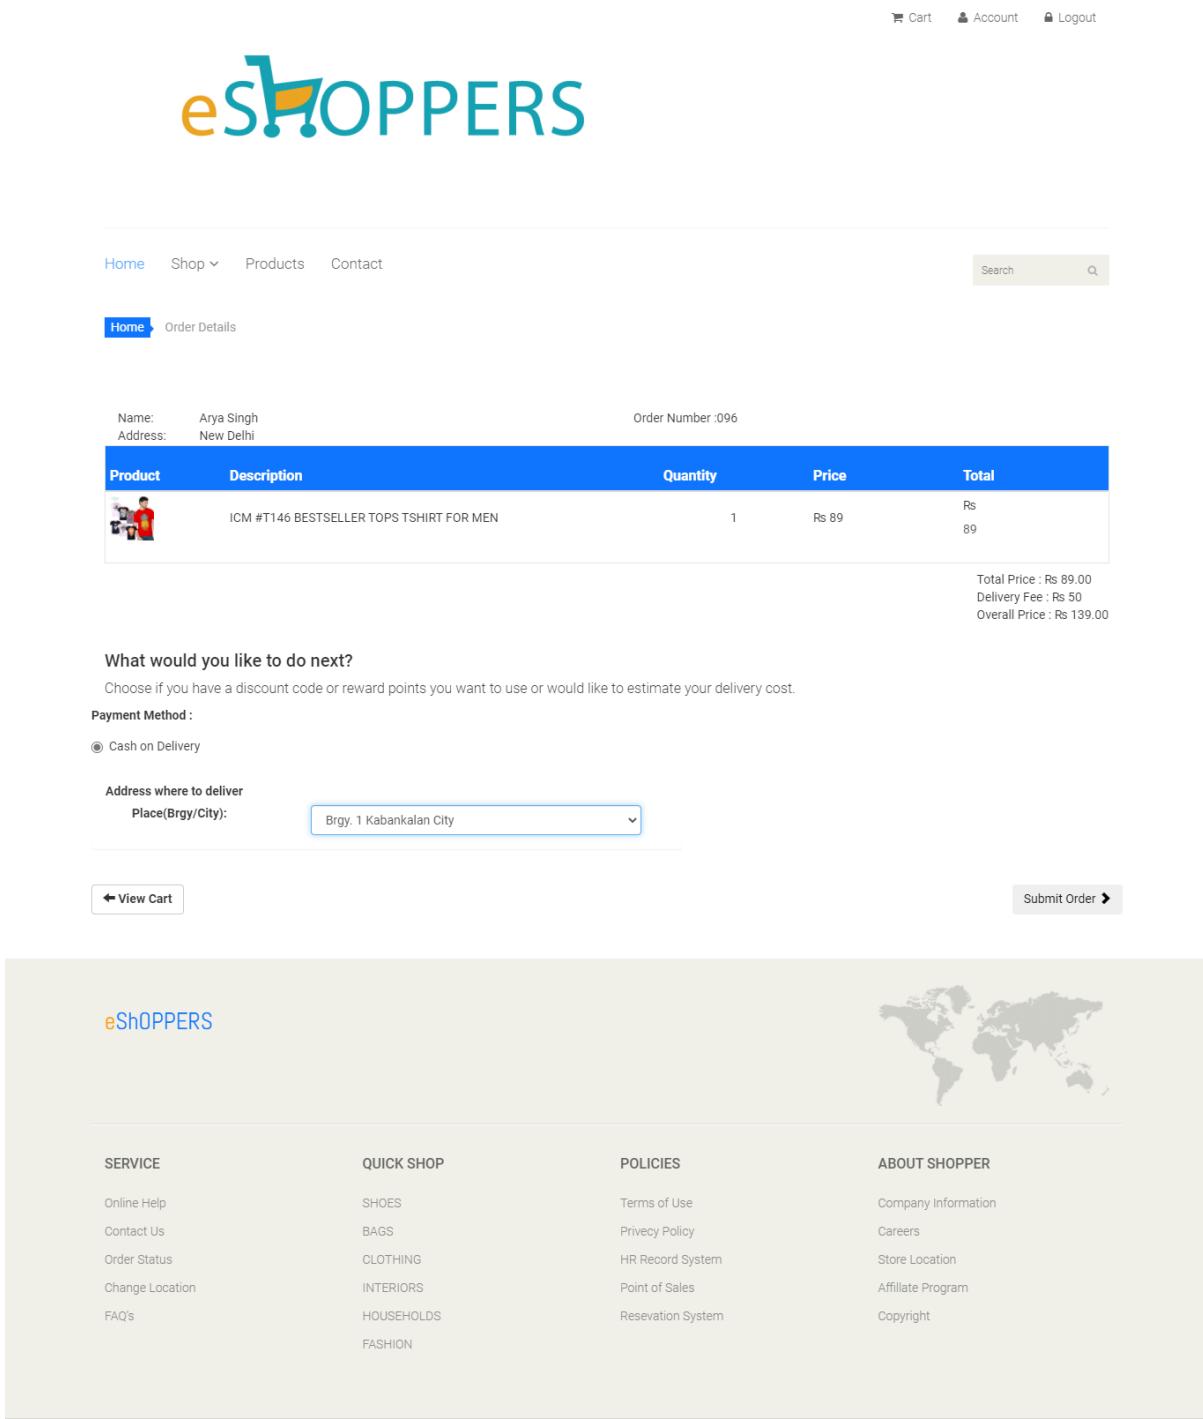

Place(Brgy/City):

[View Cart](#) [Submit Order](#)

eShOPPERS

Contact Us	BAGS	Privacy Policy	Careers
Order Status	CLOTHING	HR Record System	Store Location
Change Location	INTERIORS	Point of Sales	Affiliate Program
FAQ's	HOUSEHOLDS	Reservation System	Copyright
	FASHION		

6.26 Now from the above screen we have to choose an address where to deliver our product accordingly delivery fee will be charged for our order and than we can submit our order:

The screenshot shows the eShoppers website's Order Details page. At the top, there are navigation links for Home, Shop, Products, Contact, a search bar, and user account links for Cart, Account, and Logout.

User Information:

- Name: Arya Singh
- Address: New Delhi
- Order Number: 096

Order Summary Table:

Product	Description	Quantity	Price	Total
	ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN	1	Rs 89	Rs 89

Payment and Delivery Options:

- What would you like to do next?**: Choose if you have a discount code or reward points you want to use or would like to estimate your delivery cost.
- Payment Method:** Cash on Delivery
- Address where to deliver**: Place(Brgy/City): Brgy. 1 Kabankalan City

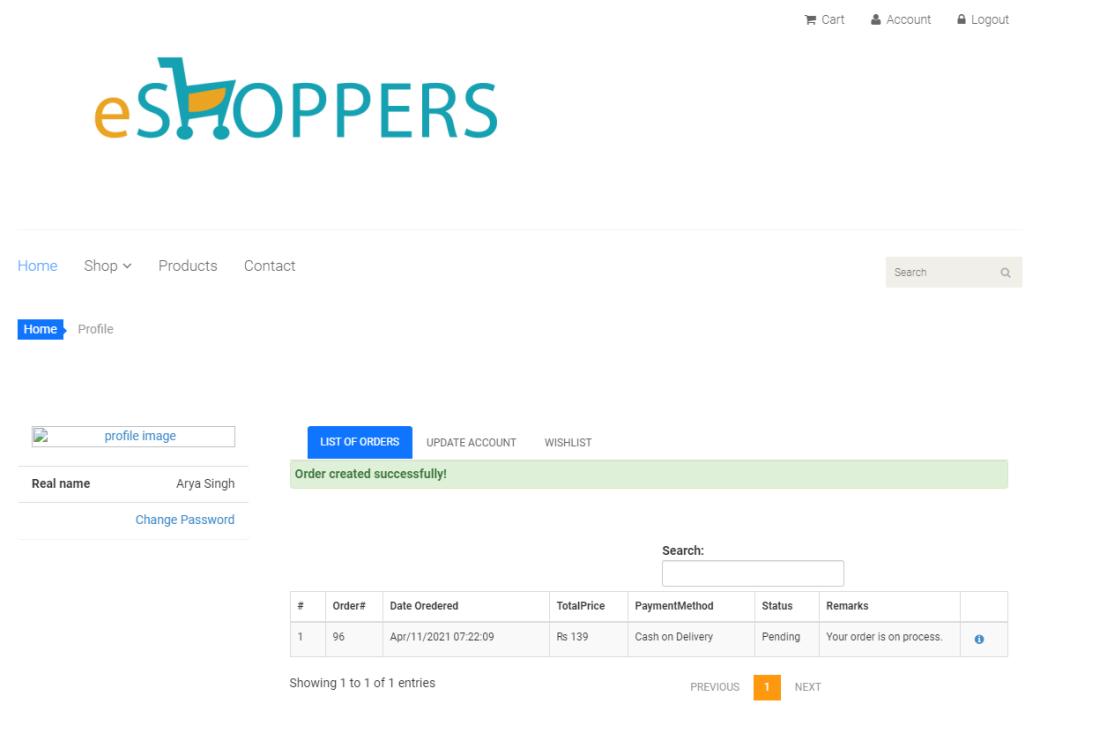

Buttons:

- [View Cart](#)
- [Submit Order](#)

Footer:

- eShOPPERS logo
- World map icon
- Navigation links: SERVICE (Online Help, Contact Us, Order Status, Change Location, FAQ's), QUICK SHOP (SHOES, BAGS, CLOTHING, INTERIORS, HOUSEHOLDS, FASHION), POLICIES (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System), and ABOUT SHOPPER (Company Information, Careers, Store Location, Affiliate Program, Copyright).

6.27 Now, submitting our order, we will get the below page:

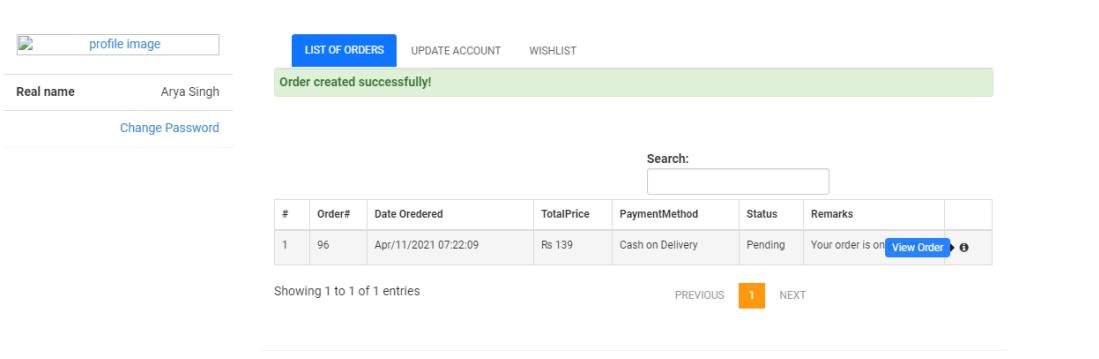

The screenshot shows the eShoppers profile page. At the top, there is a navigation bar with links for Home, Shop, Products, Contact, a search bar, and user account options (Cart, Account, Logout). The main content area features the eShoppers logo. Below it, there is a profile section with a placeholder for a profile image, the real name (Arya Singh), and a 'Change Password' link. A green success message box displays 'Order created successfully!'. Above the message box are three buttons: 'LIST OF ORDERS' (highlighted in blue), 'UPDATE ACCOUNT', and 'WISHLIST'. Below the message box is a table showing the details of the newly created order:

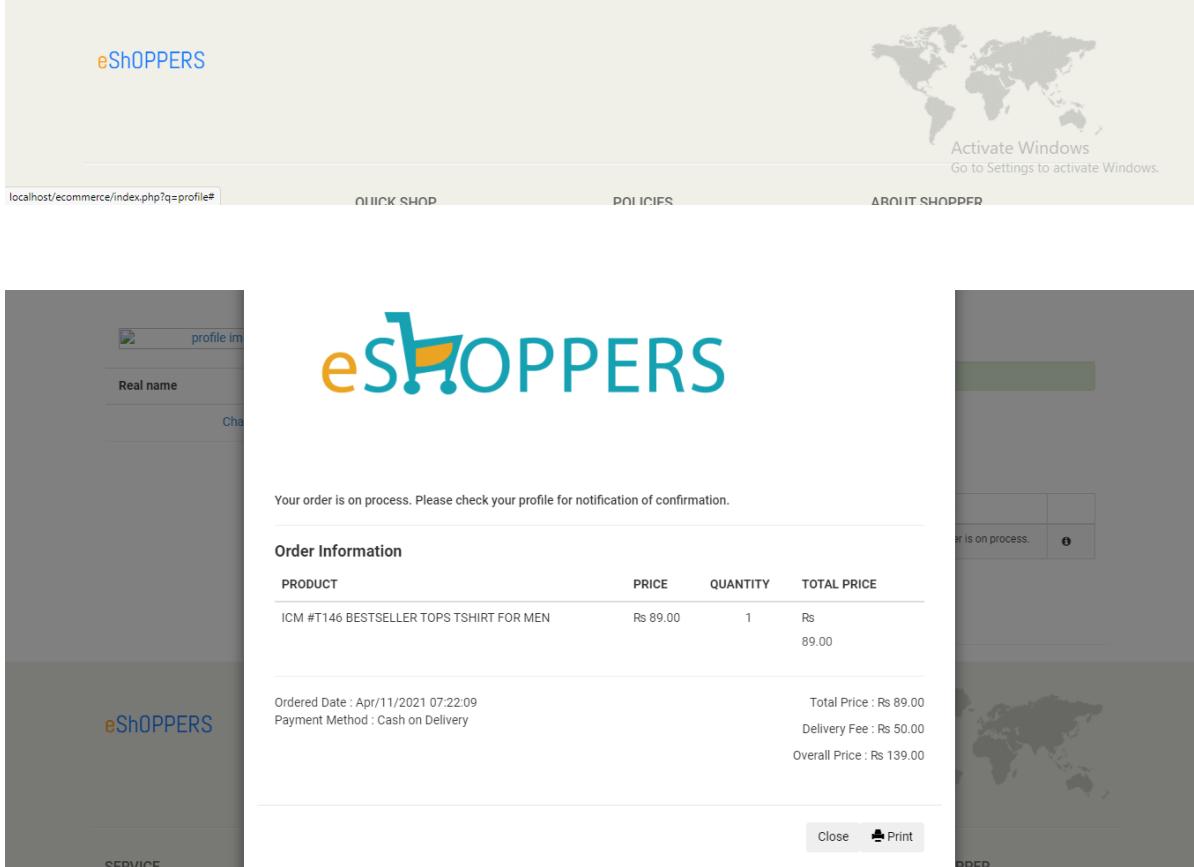

#	Order#	Date Ordered	TotalPrice	PaymentMethod	Status	Remarks	
1	96	Apr/11/2021 07:22:09	Rs 139	Cash on Delivery	Pending	Your order is on process.	i

Below the table, it says 'Showing 1 to 1 of 1 entries' with 'PREVIOUS' and 'NEXT' buttons. The bottom of the page contains a footer with links for various services like Online Help, Contact Us, Order Status, Change Location, FAQ's, QUICK SHOP categories (SHOES, BAGS, CLOTHING, INTERIORS, HOUSEHOLDS, FASHION), POLICIES (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System), and ABOUT SHOPPER sections (Company Information, Careers, Store Location, Affiliate Program, Copyright). There is also a world map icon.

6.28 We can also view our order details clicking on the buttonas below:

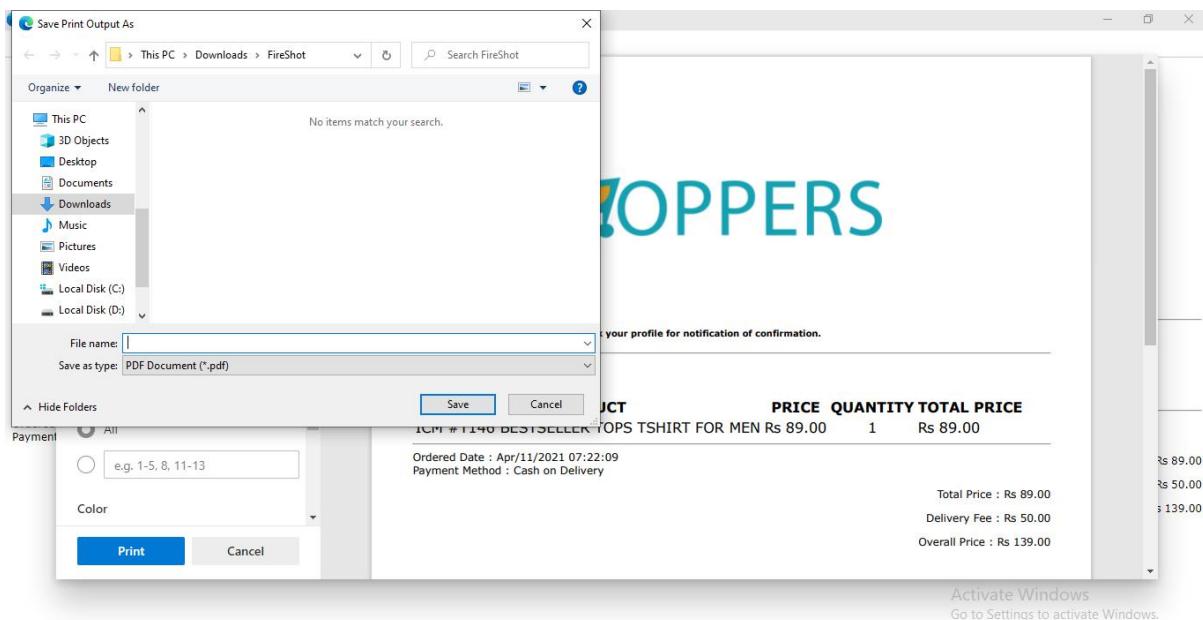

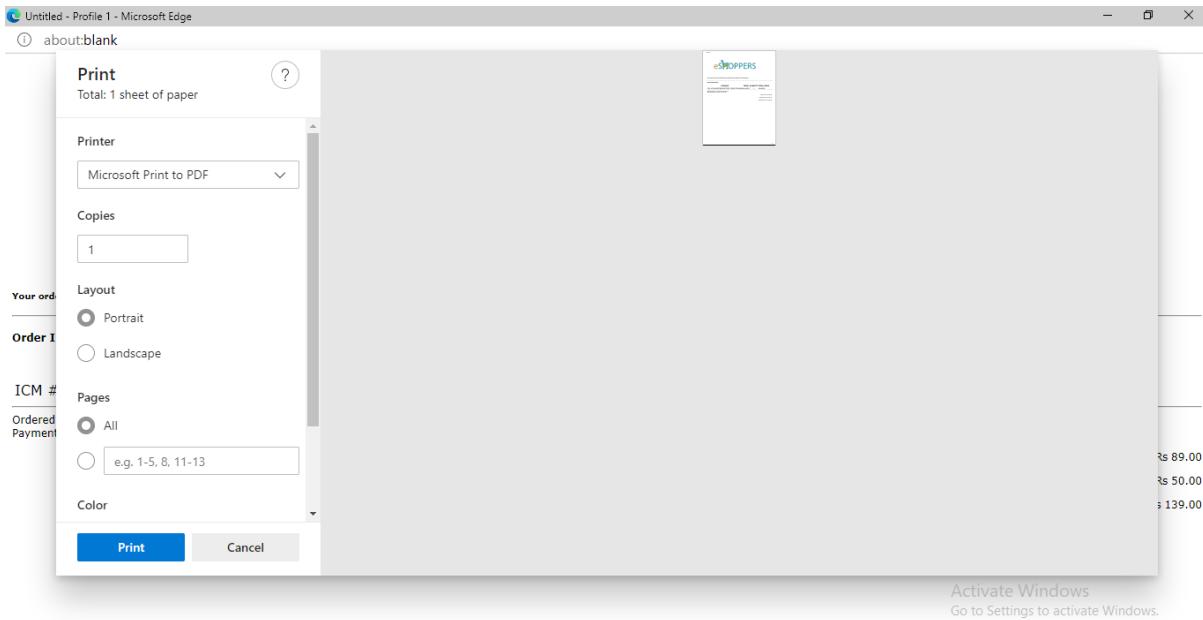

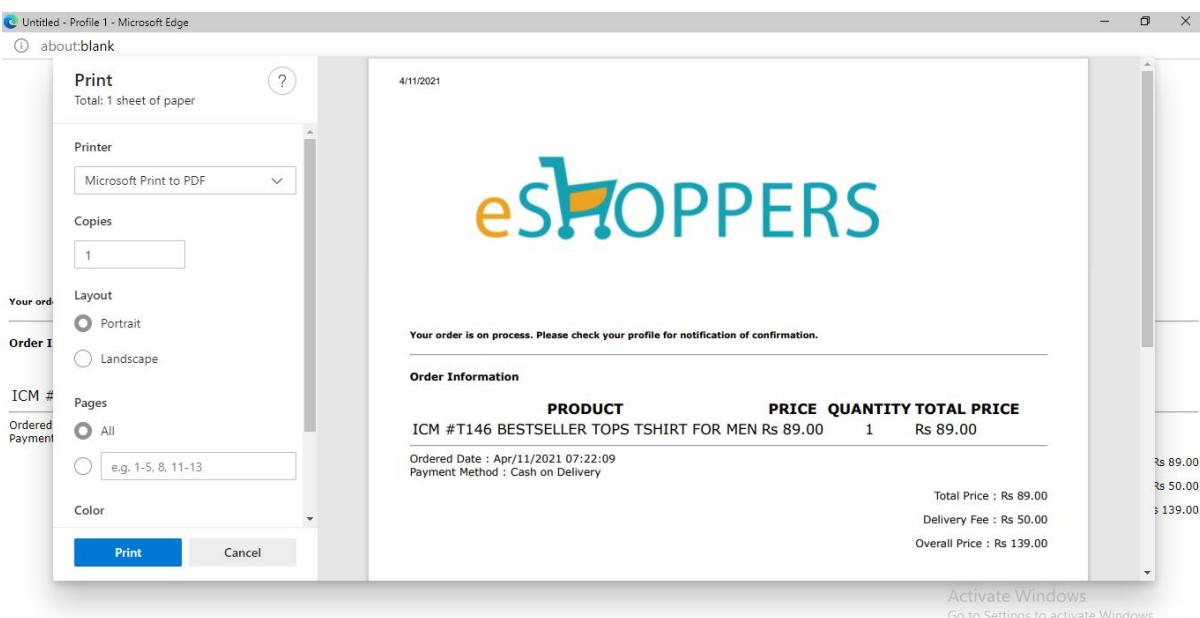

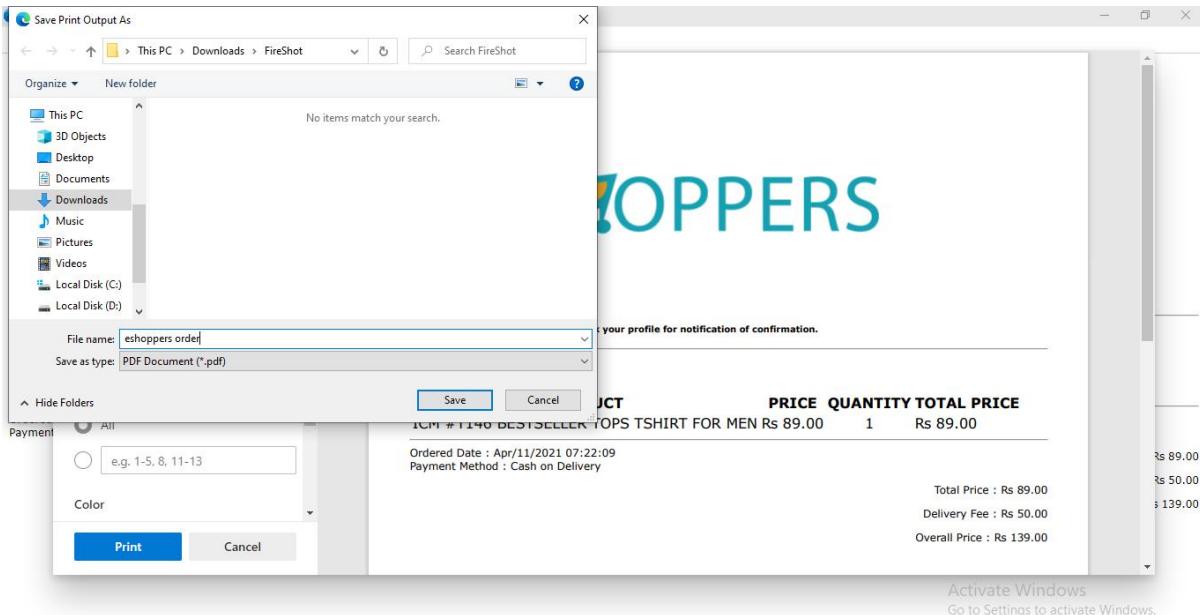

The screenshot shows the eShoppers profile page. At the top, there is a blue header bar with the text "E-SHOPPERS". Below it, the main content area has a "profile image" placeholder. A green banner at the top says "Order created successfully!". Below this, there are buttons for "LIST OF ORDERS", "UPDATE ACCOUNT", and "WISHLIST". The "LIST OF ORDERS" button is highlighted in blue. On the left, there are fields for "Real name" (Arya Singh) and "Change Password". A search bar with the placeholder "Search:" is located above a table. The table has columns: #, Order#, Date Ordered, TotalPrice, PaymentMethod, Status, and Remarks. One row is shown: #1, Order# 96, Date Ordered Apr/11/2021 07:22:09, TotalPrice Rs 139, PaymentMethod Cash on Delivery, Status Pending, and Remarks Your order is on [View Order](#). Below the table, it says "Showing 1 to 1 of 1 entries" and has "PREVIOUS" and "NEXT" buttons.

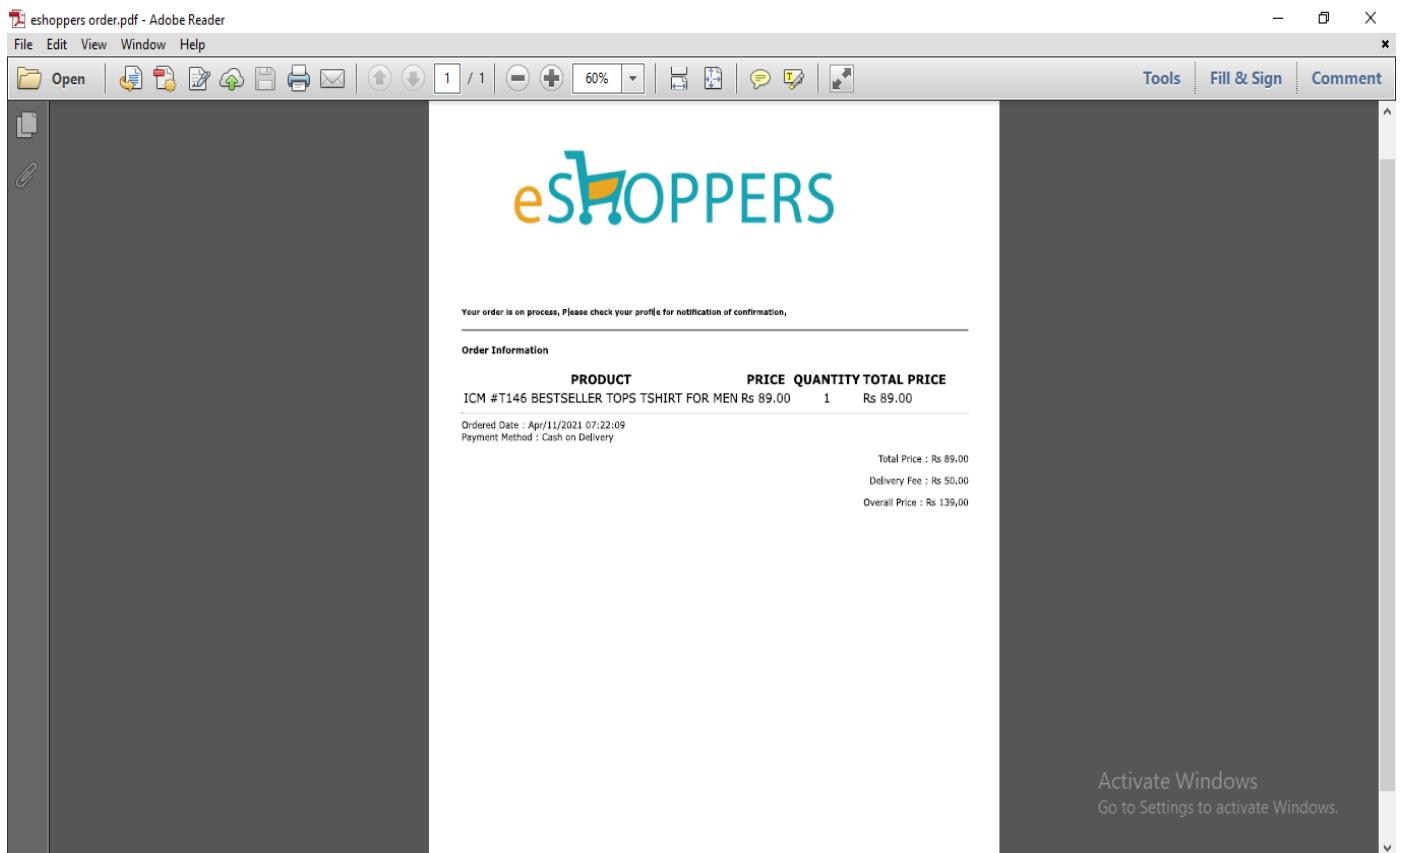

The screenshot shows the eShoppers order confirmation page. At the top, there is a header with the eShoppers logo and navigation links: "localhost/ecommerce/index.php?q=profile#", "QUICK SHOP", "PRIVACY", and "ABOUT SHOPPER". Below the header, the main content area has a large eShoppers logo. It displays a message: "Your order is on process. Please check your profile for notification of confirmation." Below this, there is a section titled "Order Information" with a table. The table has columns: PRODUCT, PRICE, QUANTITY, and TOTAL PRICE. One row is shown: ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN, Rs 89.00, 1, and Rs 89.00. To the right of the table, there is a sidebar with a world map and the text "Activate Windows Go to Settings to activate Windows." At the bottom, there are "Close" and "Print" buttons.

6.29 If we want we can also print this receipt by clicking on print on above page and a printed sheet of receipt will be generated in .pdf format:

6.30 Now, let us log out from customer Arya Singh account by clicking on Logout button and head over our Admin panel to see if the order is visible there or not:

The screenshot shows the eShoppers customer profile page for "Arya Singh". The top navigation bar includes links for "Cart", "Account", and "Logout". The main content area features the eShoppers logo. Below it, a "Profile" section shows a placeholder for a profile image and the user's name "Arya Singh". Navigation links "Home" and "Profile" are shown. A "Wish List" section is present, with tabs for "LIST OF ORDERS", "UPDATE ACCOUNT", and "WISHLIST" (which is currently selected). The "Wish List" tab contains a sub-section titled "Wish List" with a "Change Password" link.

6.31 Now, again going to our Admin account we can see that the order is visible over here:

#	Order#	Customer	DateOrdered	Price	PaymentMethod	Status	Action
1	96	Arya Singh	Apr/11/2021 07:22:09	Rs 139.00	Cash on Delivery	Pending	<button>Cancel</button> <button>Confirm</button>
2	95	Shradha Sharma	Mar/06/2021 06:30:30	Rs 169.00	Cash on Delivery	Confirmed	<button>Confirmed</button>
3	94	Annie Paredes	Aug/21/2019 06:27:09	Rs 269.00	Cash on Delivery	Confirmed	<button>Confirmed</button>
4	93	Annie Paredes	Aug/21/2019 06:24:24	Rs 0.00	Cash on Delivery	Cancelled	<button>Cancelled</button>

6.32 So, we can either confirm above order or we can cancel above order. So, I as Admin am confirming above order:

#	Order#	Customer	DateOrdered	Price	PaymentMethod	Status	Action
1	96	Arya Singh	Apr/11/2021 07:22:09	Rs 139.00	Cash on Delivery	Confirmed	<button>Confirmed</button>
2	95	Shradha Sharma	Mar/06/2021 06:30:30	Rs 169.00	Cash on Delivery	Confirmed	<button>Confirmed</button>
3	94	Annie Paredes	Aug/21/2019 06:27:09	Rs 269.00	Cash on Delivery	Confirmed	<button>Confirmed</button>
4	93	Annie Paredes	Aug/21/2019 06:24:24	Rs 0.00	Cash on Delivery	Cancelled	<button>Cancelled</button>

6.33 Now, in Admin panel we can also generate report of orders placed from certain date to certain date. Hence, generating report for above order we get:

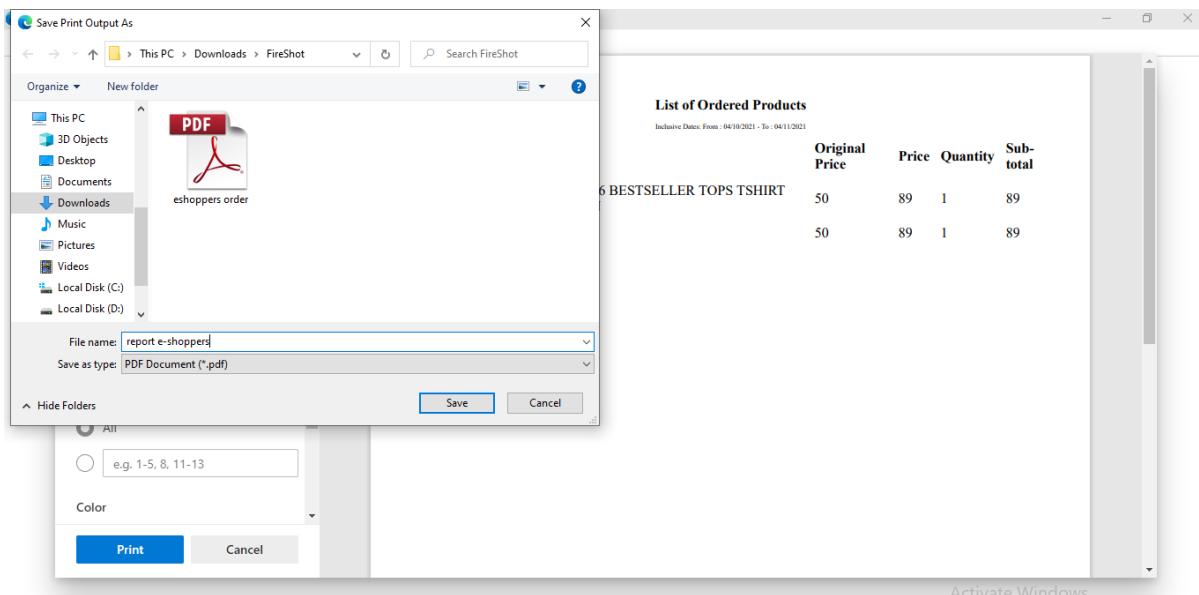

The screenshot shows the eShoppers Admin panel interface. On the left, there's a sidebar with navigation links: Products, Orders (0), Categories, Setting, Users, and Report (which is currently selected). The main content area has a title "Report" and a search bar with "From:: 04/10/2021" and "To:: 04/11/2021". Below this is a section titled "List of Ordered Products" with a subtitle "Inclusive Dates: From : 04/10/2021 - To : 04/11/2021". A table lists the ordered products:

Date Ordered	Product	Original Price	Price	Quantity	Sub-total
Apr/11/2021 07:22:09	ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN	50	89	1	89
	Total	50	89	1	89

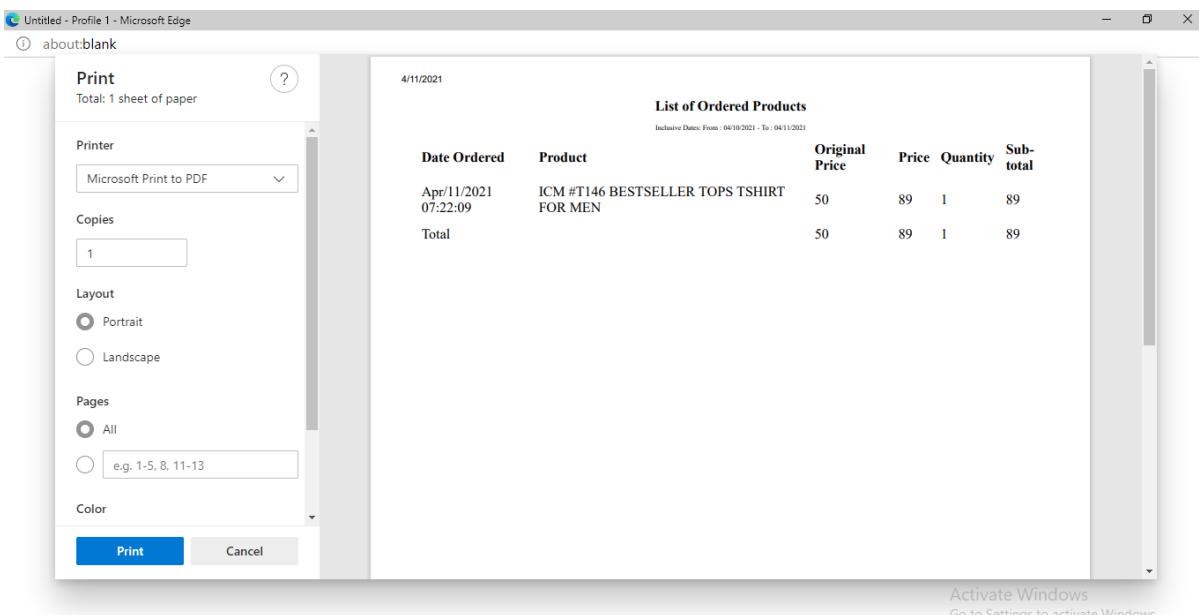

At the bottom, there's a "Print Report" button and a copyright notice: "Copyright © Bachelor of Science and Entrepreneurs".

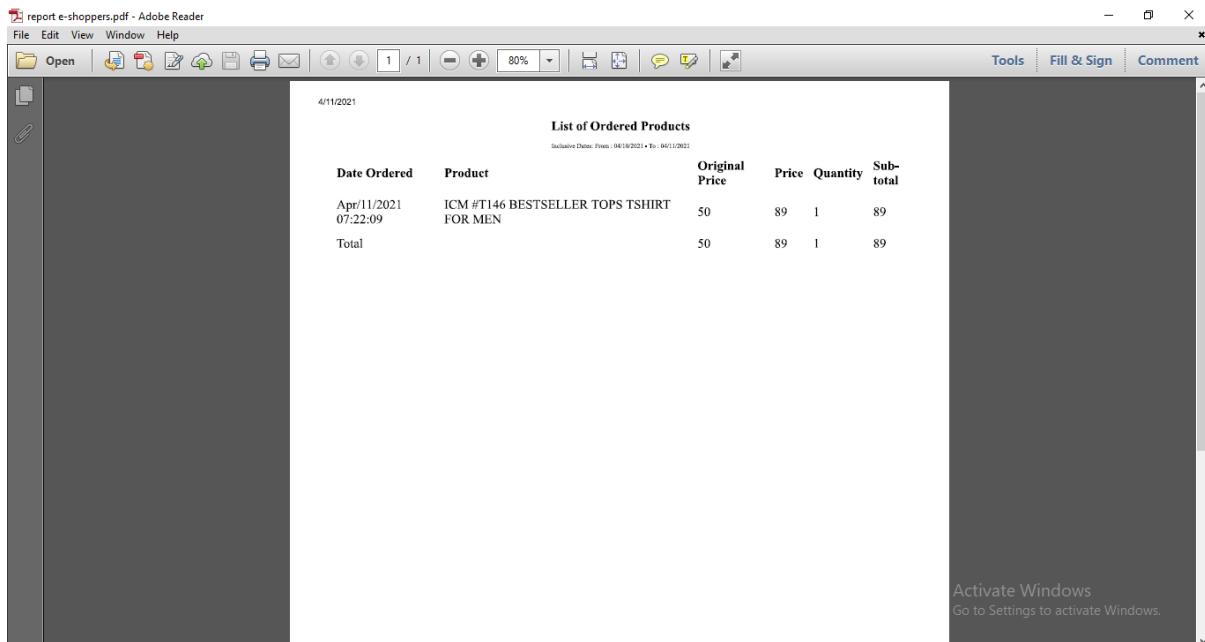

6.34 We, as Admin can also print the above report in .pdf format:

The screenshot shows the Microsoft Edge print dialog box. It includes settings for Printer (Microsoft Print to PDF), Copies (1), Layout (Portrait), Pages (All), and Color. At the bottom are "Print" and "Cancel" buttons. To the right of the dialog, a watermark says "Activate Windows Go to Settings to activate Windows."

Activate Windows
Go to Settings to activate Windows.

6.35 Now, logging out of Admin Panel:

Print Report

profile image Admin Edit My Profile Log Out

6.36 Now, as Admin we have just confirmed the order . So, now returning to customer Arya Singh's panel to see what are the changes. Now in below image we can see the status for our product is changed to "Confirmed" and it is written that your order is confirmed:

The screenshot shows the eShoppers profile page. At the top, there is a navigation bar with links for Home, Shop, Products, Contact, Cart, Account, and Logout. The main content area has a header with the eShoppers logo and a search bar. Below the header, there is a sidebar with a profile image placeholder, the real name 'Arya Singh', and a 'Change Password' link. The main content area features tabs for 'LIST OF ORDERS' (which is selected), 'UPDATE ACCOUNT', and 'WISHLIST'. A search bar is also present. The 'LIST OF ORDERS' section displays a table with one entry:

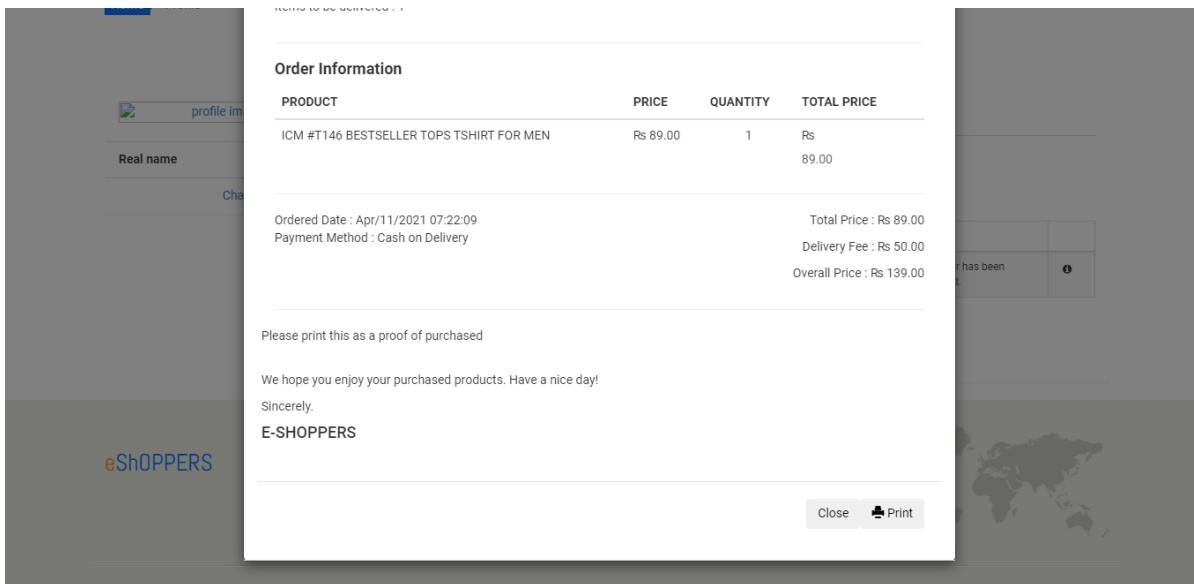

#	Order#	Date Ordered	TotalPrice	PaymentMethod	Status	Remarks
1	96	Apr/11/2021 07:22:09	Rs 139	Cash on Delivery	Confirmed	Your order has been confirmed.

Below the table, it says 'Showing 1 to 1 of 1 entries' and has 'PREVIOUS' and 'NEXT' buttons. The footer of the page contains links for various services like Online Help, Contact Us, Order Status, Change Location, FAQ's, Quick Shop categories (SHOES, BAGS, CLOTHING, INTERIORS, HOUSEHOLDS, FASHION), Policies (Terms of Use, Privacy Policy, HR Record System, Point of Sales, Reservation System), and About Shopper (Company Information, Careers, Store Location, Affiliate Program, Copyright). There is also a world map icon.

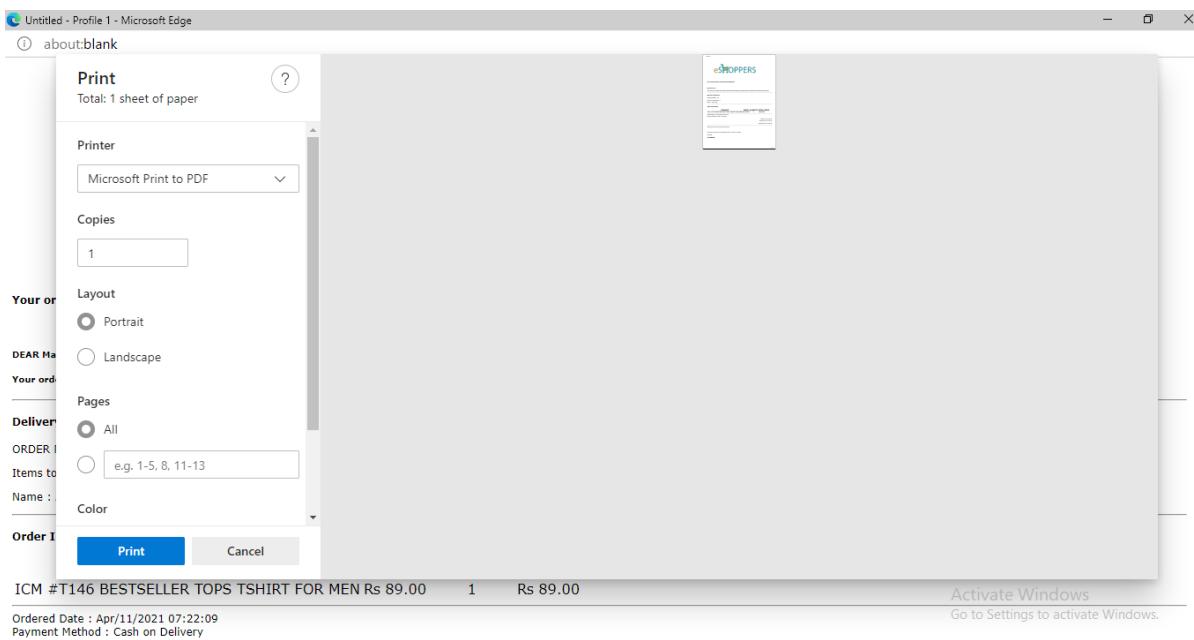

6.37 Now again viewing order summary:

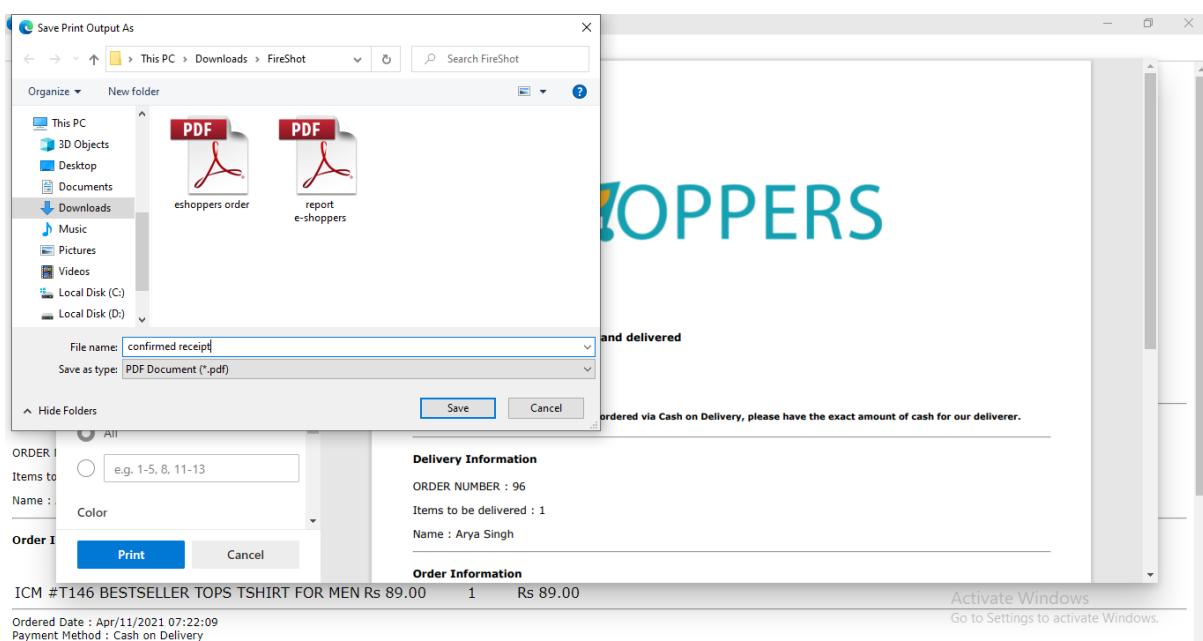

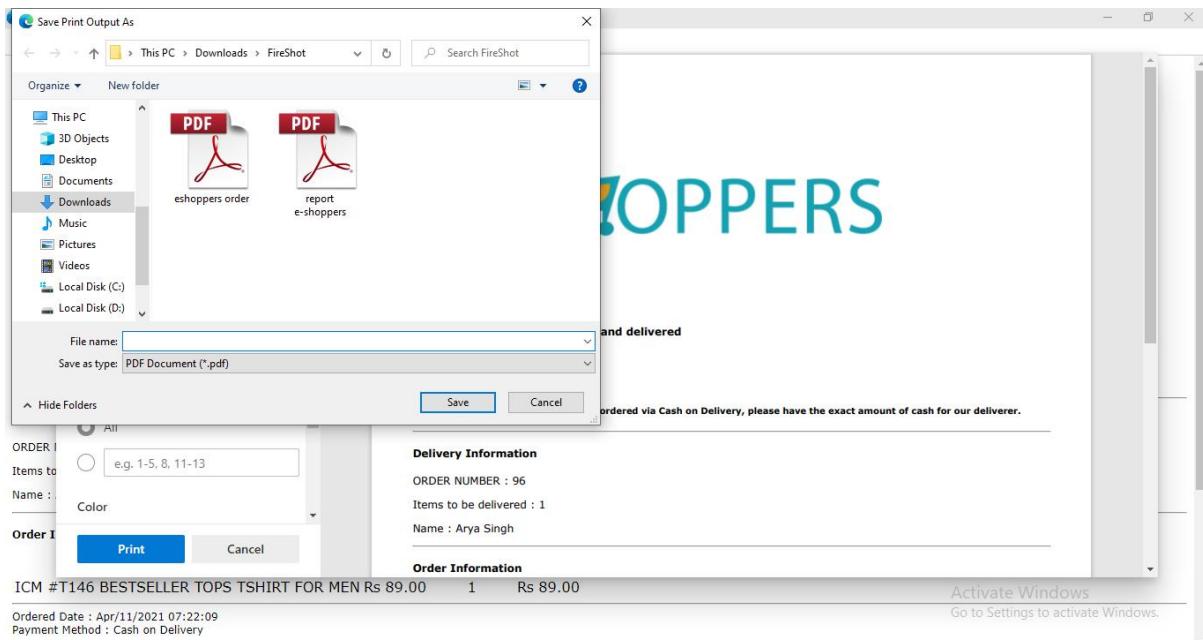

The screenshot shows a web browser window with the URL localhost/ecommerce/index.php?q=profile. The page title is "Home | E-Shopper". The main content area displays a user profile with a placeholder "profile image". Below this, there are fields for "Real name" (Arya Singh) and "Change Password". A "LIST OF ORDERS" button is highlighted in blue. To its right are links for "UPDATE ACCOUNT" and "WISHLIST". A search bar labeled "Search:" is present. Below the search bar is a table titled "LIST OF ORDERS" with columns: #, Order#, Date Ordered, TotalPrice, PaymentMethod, Status, and Remarks. One entry is shown: # 1, Order# 96, Date Ordered Apr/11/2021 07:22:09, TotalPrice Rs 139, PaymentMethod Cash on Delivery, Status Confirmed, Remarks Your order has been confirmed. Below the table, it says "Showing 1 to 1 of 1 entries". Navigation buttons "PREVIOUS" and "NEXT" are shown, with "1" in the center. At the bottom of the page, there is a watermark for "eShOPPERS" and a "Activate Windows" message with a world map.

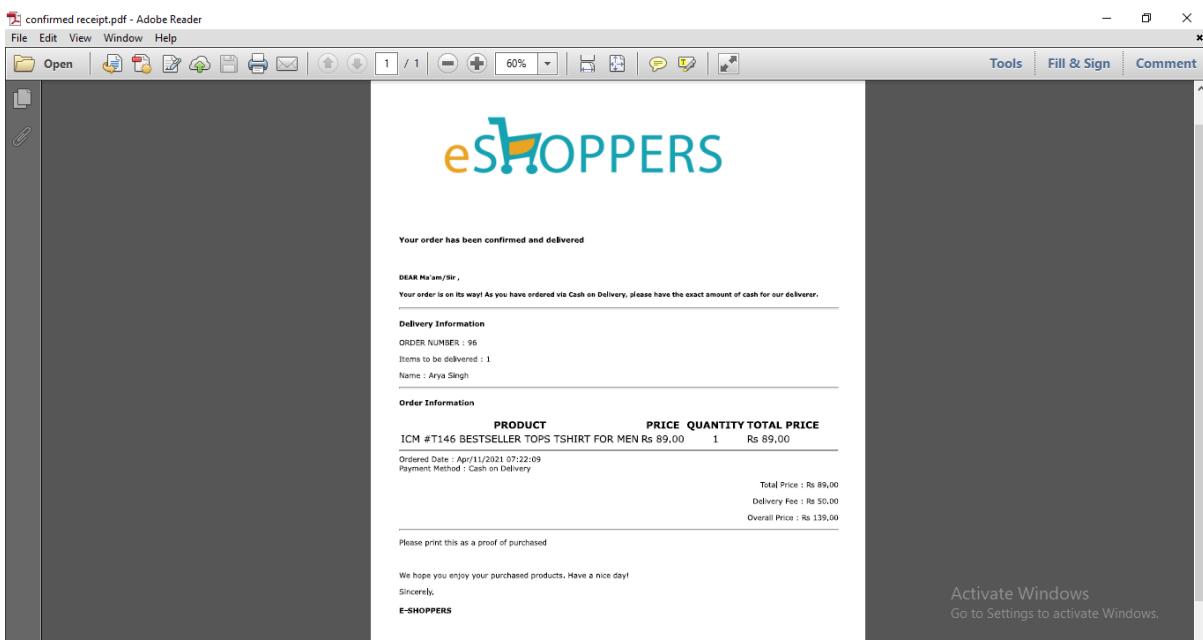

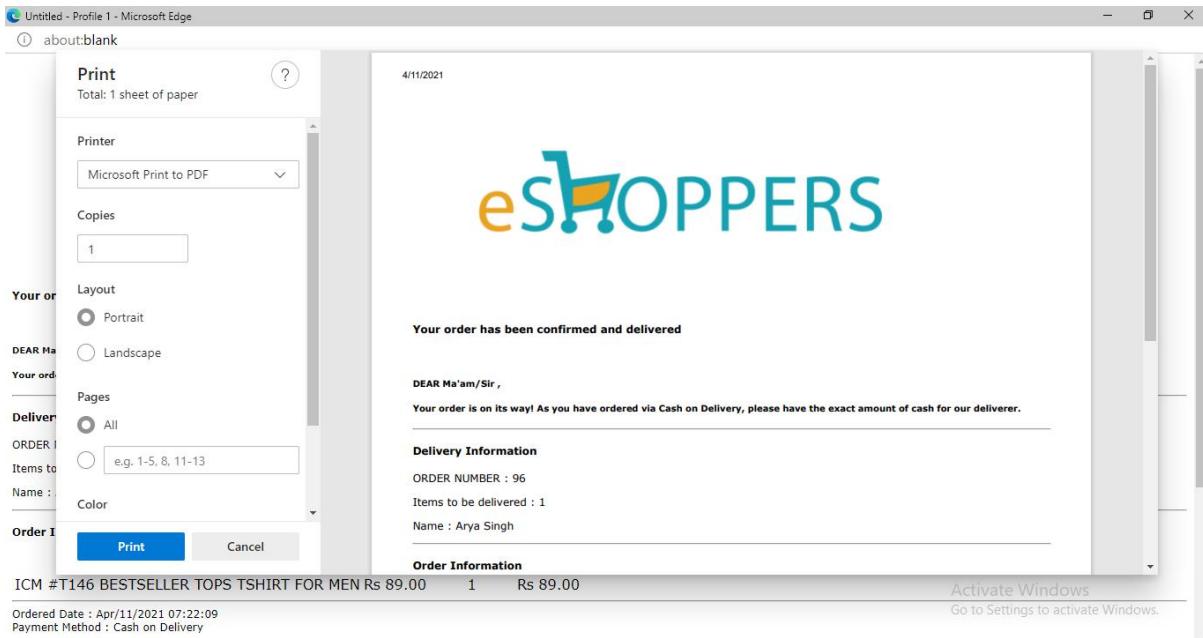

The screenshot shows a web browser window with the URL localhost/ecommerce/index.php?order_id=96. The page title is "eShOPPERS". The main content area displays a confirmation message: "Your order has been confirmed and delivered". Below this, a message to the customer reads: "DEAR Ma'am/Sir, Your order is on its way! As you have ordered via Cash on Delivery, please have the exact amount of cash for our deliverer." A "Delivery Information" section shows the order number 96 and the recipient's name Arya Singh. It also states "Items to be delivered : 1". A "Order Information" table provides details of the purchased item: ICM #T146 BESTSELLER TOPS TSHIRT FOR MEN, Price Rs 89.00, Quantity 1, and Total Price Rs 89.00. The page has a dark background with the "eShOPPERS" logo on the left and a world map watermark at the bottom.

6.38 Now, printing above receipt again we get:

6.39 So, this is how our project works.
